New Generation Liquid Storage Systems

Quick and Simple • Large Capacity • No Special Ground Preparation • Long Term Use

EKOTANK[®]
EASY[®]

Ekotank is a leader manufacturer in liquid storage systems based in **Istanbul, Turkey**. Our product line includes innovative storage tanks in different shapes and sizes that can be used in any environment with a large variety of applications. Our solutions include bladder tanks, modular galvanized steel tanks with lining, steel mesh tanks and a variety of emergency relief tanks. **Ekotank** has tanks in operation under the toughest conditions in over 35 countries worldwide. Our product line is manufactured and tested up to European Standards and we offer a variety of certifications from all over the world.

Easy Tank is the latest addition to our emergency water storage product line. The product is developed to respond to the demand for fast and practical liquid storage coming from many areas such as **NGOs, Military Forces, Emergency Aid Organizations, Fire fighting, Aquaculture** and **Domestic Applications**. Easy Tank is made out of a heavy duty galvanized steel shell structure which is very easy to assemble. The provided food grade lining is added to the structure to form the tank. **Easy Tank** assembly is very easy and fast; requiring only one person and an Allen key which is already provided in the package. Standard capacities are from 4 to 300 m³; custom sizes and shapes are available upon request. Please contact your nearest **Ekotank** Sales representative for more information.

Kit Includes

- Heavy duty tank frame including all accessories
- Food grade tank liner
- 2" outlet including ball valve
- Ground sheet
- Repair kit
- Allen tools
- Installation manual
